

Environmental Targets 2009

A. Energy Conservation

A.1 To reduce energy consumption by another 0.5% on top of the saving achieved in 2008 with reference to the base level of 06/07.

B. Chemical Conservation

B.1 To carry out two chemical audits to identify areas for chemical saving in wastewater treatment.

C. Paper Conservation

C1. To reduce annual paper consumption to 15,800 reams.

D. Waste Recovery

D1. To recycle 90% of printer cartridges consumed in all offices.

D2. To recycle 90% of rechargeable batteries used in plants.

E. Green Procurement

E1. To use recycled paper up to a level of 90% of DSD's total printing paper consumed.

F. Environmental Compliance

F1. To aim at achieving full compliance with legal environmental requirements at our sewage treatment works, and stormwater and sewage collection systems.

F2. To closely supervise our construction sites aiming at full compliance with legal requirements.

G. Ecological Enhancement

G1. To plant a cumulative total of 43,000 trees and 888,000 shrubs from 2004.

H. Environmental Awareness

H1. To organize one in-house green campaigns to promote staff awareness and active participation in greening activities
