

Environmental Targets 2008	Full Year Performance
<b>A. Energy Conservation</b>	
A.1 To reduce energy consumption by 0.5% in 2008, this means an energy saving of 1.1 million kWh.	An energy saving of 1,146,583 kWh was achieved.
<b>B. Chemical Conservation</b>	
B.1 To carry out two chemical audits to identify areas for chemical saving in wastewater treatment.	Two separate chemical audits were conducted at Siu Wo Wan STW and Tai Po STW. Chemical saving on ferric chloride and polymer of \$ 0.5M/year at Siu Ho Wan STW was identified and implemented.
<b>C. Paper Conservation</b>	
C1. To reduce annual paper consumption to 16,000 reams.	The annual paper consumption has been reduced to 13,512 reams.
<b>D. Waste Recovery</b>	
D1. To recycle 85% of printer cartridges consumed in all offices.	The recycle rate of used printer cartridge was 99%.
D2. To recycle 85% of rechargeable batteries used in plants.	The recycle rate of rechargeable batteries was 100%.
<b>E. Green Procurement</b>	
E1. To use recycled paper up to a level of 85% of DSD's total printing paper consumed.	The use of recycle paper reached a level of 99% of the printing paper consumed.
<b>F. Environmental Compliance</b>	
F1. To aim at achieving full compliance with legal environmental requirements at our sewage treatment works, and stormwater and sewage collection systems.	There were two non-compliance cases, one at Mui Wo STW and the other one at Hei Ling Chau STW.
F2. To closely supervise our construction sites aiming at full compliance with legal requirements.	There were six convictions for offences spotted in 2007; three offences spotted in 2008.
<b>G. Ecological Enhancement</b>	
G1. To plant a cumulative total of 41,000 trees and 815,000 shrubs from 2004.	At the end of 2008, a cumulative total of 41,178 trees and 955,196 shrubs were planted.
<b>H. Environmental Awareness</b>	
H1. To organize two in-house green campaigns to promote staff awareness and active participation in greening activities.	Two in-house green campaigns were organized and well received.
