Brief Introduction of the Tai Hang Tung Flood Protection Scheme

The scheme aims at alleviating the flooding problems in West Kowloon, in particular, Mong Kok, Yau Ma Tei, Tai Kok Tsui, Sham Shui Po and Tai Hang Tung areas. The scheme could avoid the extensive excavations in the busy areas of West Kowloon, which can greatly reduce the nuisance and inconvenience to the public. With the completion of Tai Hang Tung Flood Protection Scheme in 2004, the flooding problem at Mong Kok, Prince Edward area has been significantly alleviated.
