

Whole Effluent Toxicity Test Results (August 2010)

Test Species	Measured LC₅₀ / NOEC
Amphipod - <i>Melita longidactyla</i>	NT*
Fish - <i>Lutjanus malabaricus</i>	- **
Barnacle larvae - <i>Balanus amphitrite</i>	44.40%
Shrimp - <i>Metapenaeus ensis</i>	70.20%
Diatom - <i>Skeletonema costatum</i>	2.5% (NOEC)

* Not tested due to unavailability of the species

** The mortalities in all concentration groups were less than 50% of that in control group and thus LC50 can not be

: calculated.
