O&M Branch Service Provider List

Notes to Applicants for Admission to the Central List of Service Providers

(Category: Condition Surveys)

Scope

1. The service provider listed under this type of works is to carry out condition surveys for pipes, rising mains, box culverts, decked nullahs, drainage chambers, drainage channels, etc. not exceeding the quotation limit for services for construction and engineering works stipulated under Stores and Procurement Regulations (SPR) 220(b).

2. The scope of this type of works covers the design, supply and operation of equipment, implementation of works and providing reports for condition surveys of drainage and sewerage facilities, etc.

Criteria for Admission to this Category

3. The minimum admission criteria are as follows:

   (i) A registered company in Hong Kong,

   (ii) 3-year relevant local working experience of the company and key personnel of the company, and

   (iii) Relevant job reference of 3 or more jobs in condition surveys each with a completed survey length of 1,000m or more in the past 5 years.

Criteria for Suspension and Removal

4. The service provider will be suspended from bidding for quotation contracts of this type of works if he receives 2 Reports on Contractor's Performance (RCPs) with overall performance rated "Adverse" for the same quotation contract of this type of works due to poor performance within a 12-month period. The service provider's name may also be removed from the central list if the third "Adverse" RCP of the same quotation contract of this type of works is issued. The service provider's name will be suspended or deleted immediately from the central list if he performs poorly on the works on safety and environmental protection, misconduct or suspected misconduct, winding-up, bankruptcy or other financial problems, or failure or refusal to implement an accepted quotation.
